Correction: Do health professionals' attitudes towards alcohol use matter for alcohol prevention efforts? Results from the WIRUS-OHS study

Tore Bonsaksen^{1,2*}, Mikkel Magnus Thørrisen^{3,4}, Neda Hashemi⁴, David Gimeno Ruiz de Porras^{5,6,7} and Randi Wågø Aas^{3,4*}

Correction: BMC Health Serv Res 22, 1004 (2022)
<https://doi.org/10.1186/s12913-022-08400-9>

Following publication of the original article [1], the authors reported missing information in the 'Funding' section.

The statement in the 'Funding' section originally read: This study is funded by the Norwegian Directorate of Health and the Research Council of Norway. The funding bodies had no role in the design of the study, nor in data collection, analysis, or data interpretation.

The statement in the 'Funding' section should read: This study is funded by the Norwegian Directorate of Health and the Research Council of Norway. The funding bodies had no role in the design of the study, nor in data collection, analysis, or data interpretation.

DGRdP was partially funded by the Southwest Center for Occupational and Environmental Health (SWCOEH), a National Institute for Occupational Safety and Health (NIOSH) Education and Research Center at

The University of Texas Health Science Center at Houston School of Public Health, and awardee of Grant No. 5T42OH008421 from the (NIOSH)/Centers for Disease Control and Prevention.

The original article [1] has been updated.
